

Digvijaya Upadhyaya

Frontend Developer

• Bengaluru | +91 9963428347 | digbjssn@gmail.com | [Github](#) | [Linkedin](#)

Professional Summary

React Developer with almost 3.5 years of experience designing, developing, and deploying responsive web applications. Proficient in front-end and back-end technologies, committed to creating seamless user experiences and scalable solutions. Strong track record of delivering high-performance solutions, collaborating with cross-functional teams, and improving user experience through clean and maintainable code.

Technical Skills

Languages/Frameworks: JavaScript, React.js, Next.js, Node.js, Express.js, TypeScript, HTML

Databases: MongoDB, Firebase

Tools: GitHub, AWS, Cloudflare, Tailwind CSS

Other Skills: Next.js, Strapi, Cashfree, Vercel, Responsive Design

Professional Experience

Frontend Developer

Vink.ai (Feb 2025-Present)

- Developed a React-based scanner app to extract contact details from business cards via image or email input.
- Built a generative landing page builder where various landing page layouts are rendered dynamically based on input data and selected render type, enabling flexible and scalable page creation.
- Utilized data enrichment APIs for comprehensive profiling of individuals and companies.
Tech Stack: React.js, TypeScript, HTML, Tailwind CSS, Context API, Axios, Formik, React Query

Full Stack Developer

Raesm Wellbeing Private Limited, Bengaluru, India (Nov 2023 – Nov 2024)

- Developed [ATOG](#), an audio streaming platform, attracting over 16,000 users within 5 months, including 3,000 users in the first three months after launch.
- Developed a customer loyalty function offering 3 free audios at sign-up and 1 additional free audio monthly, boosting sign-up rates from 10% to 25%.
- Designed a responsive front-end with React.js and a scalable back-end using Node.js, MongoDB, and integrated the Cashfree payment gateway.
- Created a blog page using Next.js and Strapi CMS with web stories, driving user traffic to the ATOG platform and boosting conversions.
Tech Stack: React.js, Node.js, MongoDB, AWS, Tailwind, Firebase

Front End Developer

Platify Technologies Pvt Ltd, Bengaluru (Sep 2022 - Oct 2023)

- Developed 4+ full-stack web applications across real estate, e-commerce, and service-based domains, using the MERN stack.
- Built responsive UIs with React.js, Tailwind CSS, and HTML/CSS, resulting in an average 45% improvement in mobile usability across projects.
- Created and consumed RESTful APIs using Node.js and Express.js, enabling smooth front-end to back-end communication with error handling and validation.
- Integrated MongoDB for robust NoSQL database management, including schema design, aggregation pipelines, and optimized queries.

- Implemented user authentication and authorization using JWT (JSON Web Tokens) and bcrypt, securing over 90% of private user data endpoints.
- Improved app performance by optimizing React components and reducing API response time by up to 30% using proper indexing and async handling in MongoDB and Node.js.
- Integrated third-party tools such as Cloudinary (for media management), Firebase (for storage or authentication in some cases), and Stripe/PayPal for payment processing.

Test Engineer

Oppo Mobiles, Noida, India (Jun 2020-Jun 2022)

- Worked on NPI (New Product Introduction) models, setting up test lines for new devices and ensuring smooth production integration.
- Conducted RF Line Loss Tests and failure analysis of QC-failed PCBAs, identifying root causes and recommending corrective actions.
- Gradually transitioned into development tasks, contributing to internal tools and dashboards using **HTML, CSS, and JavaScript**, improving test workflow visibility and data reporting.

Education

Bachelor of Technology – JNTU, Kakinada, Andhra Pradesh, India (May 2016)
